EXPERIENCE

Salesforce Developer Virtual Intern | SmartBridge / SmartInternz *Dec 2023 - Jan 2024*

Virtual | 8-week Salesforce Developer Virtual Internship

Completed Salesforce Fundamentals, Organization Setup, Relationship & Process Automation, Flows & Security, Apex, Testing & Debugging, VS Code/CLI, Lightning Web Components (LWC) & API training; earned Apex Specialist, Process Automation Specialist and Developer Super Set badges.

Zaalima Development [Clothes - app] *17 April 2025 - 17 July 2025*

Web Development Intern | Electronics City, Karnataka, 560100

Built a custom-apparel e-commerce platform for design upload, mockup preview, cart/checkout, order tracking, profiles and admin inventory/order management, streamlining the design-to-order workflow.

Implemented JWT authentication and product variants; centralized customer designs, orders and status updates into one web workflow.

NomadBihari - Travel & Culture Blog Platform GitHub

Built a full-stack travel and blogging platform addressing fragmented travel-content sharing and community engagement. Implemented OTP/JWT authentication, media uploads, real-time likes/comments/shares, analytics, AI content optimization, and admin monitoring using HTML/CSS/JS, Node.js/Express, MySQL, OpenAI API; reduced processing time by 40%.

SentinelAI - AI Fraud & Public Safety Intelligence Platform GitHub

Built SentinelAI, an AI-assisted public-safety platform addressing digital-arrest scams, counterfeit currency, coordinated fraud, and disconnected case reporting. Developed role-based citizen, police, and banking workflows using React, FastAPI and MongoDB, combining risk scoring, fraud-graph and geospatial intelligence.

PocketTerminal - Remote Laptop Control Platform GitHub

Built a mobile-to-laptop remote terminal enabling voice/text command execution, real-time WebSocket control, AI intent recognition, and personalized suggestions. Replaced a legacy Naive Bayes classifier (~75-80% accuracy) with an LSTM-based neural model reporting 99%+ intent-classification accuracy, improving command interpretation by ~19-24 percentage points.
